PRESS RELEASE

Thursday, June 14, 2012

The Franklin County District Attorney is issuing the following in relation to the criminal case against Defendant Jeffrey Eldon Miles:

With Authorization from Franklin County District Attorney Matt Fogal, today the Pennsylvania State Police ("PSP") filed a criminal complaint at the office of Magisterial District Judge Larry Pentz, charging Jeffrey Eldon Miles with one count of Criminal Homicide for the 1995 murder of Angie Lynn Daley.

Through their diligent investigation, law enforcement determined that in August, 1995, Miles struck Daley in the head one time with a 2x4 board while the two of them were at a house on Rabbit Road in Greencastle, PA. Believing this blow was fatal, he transported Daley to a private farm road off of Buchanan Trail East to dispose of her body. Upon arriving at the site, he discovered she was not dead and struck her two more times with the board, killing her. Miles confessed to killing Daley during the investigation concerning the 2010 murder of Kristy Dawn Hoke. It was during this investigation in April 2010, approximately 14 ½ years after Daley went missing, that Miles took PSP troopers to the location where her body was recovered.

The remains were immediately analyzed by a Forensic Anthropologist from Mercyhurst College, who later confirmed that the manner of death was homicide and the cause of death was blunt force trauma to the head. The report confirms that the victim's skull had three distinct areas of impact, consistent with the statement given by Miles.

The weapon used in this murder has been recovered. Miles told PSP troopers the location of the weapon, indicating that it has been outside since the murder occurred. PSP troopers travelled to the location described by Miles, and it was found precisely where he had said it was located.

PRESS RELEASE-Jeffrey Miles Charged with Criminal Homicide for 1995 Death of Angie Daley
June 14, 2012

Since that time, the investigation has continued, particularly concerning scientific testing. Recently, a report was completed concerning DNA analysis performed upon the skeletal remains, which confirmed that the remains were indeed Angie Daley.

A date for the preliminary hearing in this matter will be set when MDJ Pentz presides over the preliminary arraignment in this case.

The victim's parents, Clarence E. Daley, Jr., and Sunday Gossert, were consulted regarding this decision, and this release of information, and they are in agreement. They have suffered an immense loss, and have not known precisely what had happened to their daughter, or how, for 14 ½ years. They are thankful to now have some amount of closure. They have asked that they not be contacted by the media.

The factual information described above is contained within a public record, specifically the Criminal Complaint/Affidavit of Probable Cause filed in this matter.

**NOTE: The defendant is accused of the above offense, and readers are reminded that all defendants are presumed innocent unless and until proven guilty.*
